PUBLIC COMMENT:

George Tebbe: (438 S SR 19 Tipton, IN) George stated that they had an informal meeting for the Lemuel Kirtley and George McCorkle. There was not a resolution. Jason replied that he suggested that the Lemuel Kirtley would have to be a full on reconstruction. The George McCorkle would have the easternmost 1100 feet of it replaced. Jason stated that he is waiting on the quote from H & M.

Bruce Schulenburg asked about the delay on the Henry Stillwagner. Jason replied that the Surveyor's Office had established a watershed and will have the hearing the same time as the other hearings which will be in the fall.

Bob Edinger asked about a recent meeting of state board of registered professional surveyors which he believes Jason is the chairman. Bob asked Jason is there is anything pertinent in those meetings. Surveyor Jason replied that they do talk about drainage every once in a while. It is mostly about licensure and people who come in and want to get a license to practice. Jason also pointed out that there are only 730 in the state.

ADJOURNMENT: Jim Mullins made a motion to adjourn the meeting. Mark 2<sup>nd</sup> the motion. With no further discussion the motion passed.
