

US31 PEL Study

We have been encouraged to make comments and get involved in the PEL study. This study is being conducted to re-evaluate the type and number of overpasses and/or interchanges on US 31 through our county. County Citizens are encouraged to advocate for not only a Division Road Interchange, but also other visions for the corridor through Tipton.

INDOT now has a website (<https://propelus31.com/>) to receive updates and make comments on the two project areas. USI31 North, and US31 South (which includes Tipton County).
